

Outpatient & community solutions

All-in-one customisable solutions for organisations to manage outpatient appointments, helping you maximise client engagement & efficiency to optimise your patient experience.

Why choose Healthengine?

See more patients with increased appointment attendance & improved efficiencies

Empower patients with appointment choice & access to information

Improve your services through patient feedback & management reporting

Flexible features

Our flexible solutions offer all the below features and more including patient engagement options available like Telehealth.

Online Booking System

Allow patients to book appointments easily online 24/7, enabling patient convenience & peace of mind.

Reminders and Communication

Send reminders & targeted communications via email & SMS to reduce DNAs & keep patients informed.

Patient forms

Send patients digital forms pre-appointment to reduce admin time. Customised to your requirements.

Waiting List

Be notified of patients who are on your waiting list & say goodbye to empty appointments slots.

Check-ins

Allow patients to check-in at your waiting room or online helping reduce wait times & front desk queues.

Multi-site management & reporting

Manage everything in our easy-to-use portal. Harness the power of data to identify & drive service improvements.

Integrations including with Patient Administration Systems

Reduce manual data entry with our integration options tailored to suit you.

Patient feedback (PREMS & PROMS)

Capture feedback as part of the patient journey & improve your patients' experience and outcomes.
